BRANDING AREA

WORKING WITH OUR UNIQUE SQUARE DESIGN

Our Dram base labels curve to follow the slight inward angle of our physical containers.

This means elements on a single panel might need to be rotated in order to appear straight when printed.

- Use the gray rotational values at the top of each panel to ensure your artwork prints correctly.

Dimensions in base dieline documents reflect the overall height of the label shape, not the height of any single panel.

145D VARIABLE LABEL RECOMMENDATION

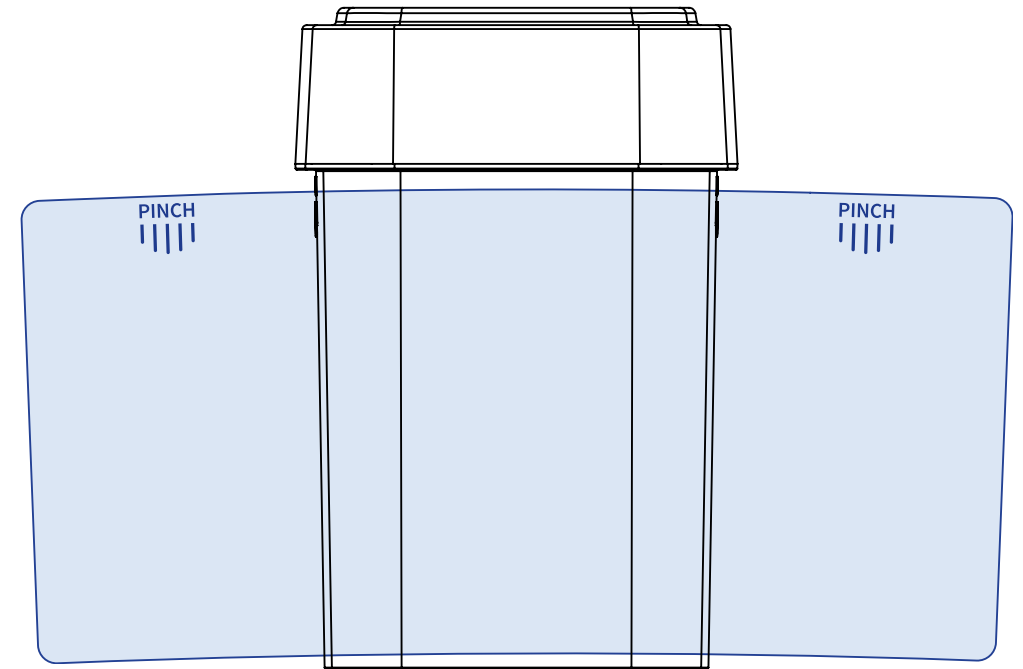

We recommend using up to a **W 2.31" x H 3.12"** variable sticker on our 145D container base.

This size will cover one panel of the container and primary label.

3 PANEL BASE LABEL

OVERALL: W 7.378" x H 3.53"

SINGLE PANEL: W 2.3" x H 3.4"

LID LABEL

W 2.4108" x H: 2.4108"
